## ERRATA, VOLUME 41

A. P. Morse, Convergence in variation and related topics, pp. 48-83.

Page 55, line 4. Instead of $f^{\prime}(t)=\mu$ read $\left|f^{\prime}(t)\right|=\mu$.
Page 55. In the fourth line of the four line display replace - by + .
Page 62, Lemma 4.4. Property (iii) should read, if $\phi$ is any function in CC which is applicable to $f$, then $\phi$ is applicable to $g$ and $\cdots$.

Also in Lemma 4.4, the last member of the first line which defines $\Lambda(t)$ should read $|\phi: f(t)-\phi: f(t-)|$.

Page 64. In the statement of Lemma 4.5 and Corollary 4.1, replace $g$ by $f$.
Page 74. In the second line of the statement of Theorem 5.8, replace $[0,1]$ by $[0, t]$.

Page 80. The displayed line in the statement of Theorem 8.2 should be the same as the corresponding line in Theorem 8.3.

Oystein Ore, On the theorem of Jordan-Hölder, pp. 266-275.
In line 1, p. 274, there is a disturbing misprint. Theorem 7 is a consequence of Theorem 1, not of Theorem 5 as stated. It is essential that the conditions for Theorem 5 are not satisfied in this case. A simple calculation shows however that the conditions for Theorem 1 are fulfilled.
