## TRANSACTIONS OF THE AMERICAN MATHEMATICAL SOCIETY

THIS JOURNAL is devoted entirely to research in pure and applied mathematics, and includes, in general, longer papers than those in the PROCEEDINGS. Papers should be at least 16 typed pages in length.

**PREPARATION OF THE MANUSCRIPT.** All papers should be typewritten double-spaced, and two copies should be sent to the appropriate editor. The author should keep a complete copy. To encourage the submission of manuscripts in electronic form using  $\text{\TeX}$  and the  $\mathcal{A}\mathcal{M}\mathcal{S}\text{-}\text{\TeX}$  macro package, the Executive Committee of the Council has adopted a policy that allows for accelerating the publication date of such manuscripts by as much as 20 weeks, which is approximately equal to the time normally needed by the Society for copyediting, typesetting, and proofreading an average manuscript.

**FORM OF MANUSCRIPT.** The first page should consist of a *descriptive title*, followed by an *abstract* which summarizes the article in language suitable for workers in the general field (algebra, analysis, etc.). The *descriptive title* should be short, but informative; useless or vague phrases such as "Some remarks about" or "concerning" should be avoided. Also avoid proper names unless mathematical usage associates them with the work. The *abstract* should be at least one complete sentence, and at most 300 words, with the upper limit primarily for longer papers. Included with the footnotes to your paper, but placed before the first footnote, there should be first the 1991 *Mathematics Subject Classification* representing the primary and secondary subjects of the article, which may be followed by a list of *key words and phrases* describing the subject matter of the article and taken from it. A list of the numbers may be found in the annual subject index of *Mathematical Reviews*, published with the December issue starting in 1990.

**SUBMISSION OF MANUSCRIPT.** See the back of this journal.

**COPYRIGHT TRANSFER AGREEMENT.** The signing of a Copyright Transfer Agreement is a requirement for publication.

**GALLEY PROOF.** When a paper with more than one author has been accepted for publication, only one set of galley proof will be sent. Joint authors should, therefore, indicate on the original manuscript which of them should receive galley proof in the event that the manuscript is accepted for publication.

**BACKLOG.** 100 pages. Two-thirds of the papers currently being accepted by the editors will be published in 18 months.

**SUBSCRIPTION INFORMATION.** TRANSACTIONS OF THE AMERICAN MATHEMATICAL SOCIETY is published monthly. Subscription prices for Volumes 329–334 (1992) are \$842 list; \$674 institutional member. A late charge of 10% of the subscription price will be imposed upon orders received from nonmembers after January 1 of the subscription year. Subscribers outside the United States and India must pay a postage surcharge of \$27; subscribers in India must pay a postage surcharge of \$50. Expedited delivery to destinations in North America \$38; elsewhere \$127.

**BACK NUMBER INFORMATION.** Back number prices *per volume* are: for Volumes 78–280, \$113 list, \$90 institutional members; for Volumes 281–286, \$131 list, \$105 institutional members; for Volumes 287–292, \$161 list, \$129 institutional members; for Volumes 293–298, \$179 list, \$143 institutional members; for Volumes 299–304, \$191 list, \$153 institutional members; for Volumes 305–310, \$195 list, \$156 institutional members; for Volumes 311–316, \$197 list, \$158 institutional members; for Volumes 317–322, \$188 list, \$150 institutional members; for Volumes 323–328, \$205 list, \$164 institutional members. Volumes 1–77 may be ordered from Johnson Reprint Corporation, 111 Fifth Avenue, New York, New York 10003. Back numbers may be purchased on microfilm or microfiche from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan 48106.

---

Subscriptions and orders for publications of the American Mathematical Society should be addressed to American Mathematical Society, P. O. Box 1571, Annex Station, Providence, R. I. 02901-1571. *All orders must be accompanied by payment.* Other correspondence should be addressed to P. O. Box 6248, Providence, R. I. 02940-6248.

TRANSACTIONS of the American Mathematical Society is published monthly by the American Mathematical Society at 201 Charles Street, Providence, R. I. 02904-2213. Second-class postage is paid at Providence, Rhode Island. Postmaster: Send address changes to TRANSACTIONS, American Mathematical Society, P. O. Box 6248, Providence, R. I. 02940-6248.

## MEMOIRS OF THE AMERICAN MATHEMATICAL SOCIETY

This bimonthly journal is devoted to research in pure and applied mathematics of much the same nature as appears in TRANSACTIONS. An issue consists of one or more separately bound research tracts for which the author(s) has provided reproduction copy. Prior to 1975 this was published as a monograph series. The editorial committee is identical with that for the TRANSACTIONS so that papers intended for publication in this series should be addressed to one of the editors.

---

### SUBMISSION OF MANUSCRIPT

Two copies of mathematical papers intended for publication in the TRANSACTIONS or the MEMOIRS should be addressed to one of the editors. Subjects, and the editors associated with them, follow.

Harmonic analysis, representation theory, and Lie theory to AVNER D. ASH, Department of Mathematics, The Ohio State University, 231 West 18th Avenue, Columbus, OH 43210

Abstract analysis to MASAMICHI TAKESAKI, Department of Mathematics, University of California, Los Angeles, CA 90024

Real and harmonic analysis to DAVID JERISON, Department of Mathematics, Room 2-180, Massachusetts Institute of Technology, Cambridge, MA 02139

Algebra and algebraic geometry to JUDITH D. SALLY, Department of Mathematics, Northwestern University, Evanston, IL 60208

Geometric topology, hyperbolic geometry, infinite group theory, and general topology to PETER SHALEN, Department of Mathematics, University of Illinois, Chicago, IL 60680

Algebraic topology and differential topology to RALPH COHEN, Department of Mathematics, Stanford University, Stanford, CA 94305

Ordinary differential equations, partial differential equations, and applied mathematics to JOHN MALLET-PARET, Division of Applied Mathematics, Brown University, Providence, RI 02912-9000

Global analysis and differential geometry to ROBERT BRYANT, Department of Mathematics, Duke University, Durham, NC 27706-7706

Probability and statistics to RICHARD DURRETT, Department of Mathematics, Cornell University, Ithaca, NY 14853-7901

Combinatorics and Lie theory to PHILIP J. HANLON, Department of Mathematics, University of Michigan, Ann Arbor, MI 48109-1003

Logic, set theory, general topology, and universal algebra to JAMES E. BAUMGARTNER, Department of Mathematics, Dartmouth College, Hanover, NH 03755

Algebraic number theory, analytic number theory, and automorphic forms to WENCHING WINNIE LI, Department of Mathematics, Pennsylvania State University, University Park, PA 16802-6401

Complex analysis and nonlinear partial differential equations to SUN-YUNG A. CHANG, Department of Mathematics, University of California, Los Angeles, CA 90024

All other communications to the editors should be addressed to the Managing Editor, JAMES E. BAUMGARTNER, Department of Mathematics, Dartmouth College, Hanover, NH 03755

### COPYING AND REPRINTING

Individual readers of this publication, and nonprofit libraries acting for them, are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews, provided the customary acknowledgment of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Manager of Editorial Services, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940-6248.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the fee of \$1.00 plus \$.25 per page for each copy be paid directly to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, Massachusetts 01970. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale.

Examples of pseudo-Anosov homeomorphisms	
By MAX BAUER .....	333
An upper bound for the least dilatation	
By MAX BAUER .....	361
Hyperfinite transversal theory	
By BOŠKO ŽIVALJEVIĆ .....	371
Pettis integrability	
By GUNNAR F. STEFÁNSSON .....	401
A characterization of cocompact hyperbolic and finite-volume hyperbolic groups in dimension three	
By J. W. CANNON and DARYL COOPER .....	419
Ramsey theory in noncommutative semigroups	
By VITALY BERGELSON and NEIL HINDMAN .....	433
The Gaussian map for rational ruled surfaces	
By JEANNE DUFLOT and RICK MIRANDA .....	447
Erratum to “Characterizations of normal quintic $K$ -3 surfaces”	
By JIN-GEN YANG .....	461

TRANSACTIONS OF THE AMERICAN MATHEMATICAL SOCIETY

CONTENTS

Vol. 330, No. 1

March 1992

Whole No. 682

Analytic geometry of complex superspaces By H. FLENNER and D. SUNDARARAMAN .....	1
The conormal derivative problem for equations of variational type in non-smooth domains By GARY M. LIEBERMAN .....	41
Earthquakes on Riemann surfaces and on measured geodesic laminations By FRANCIS BONAHOON .....	69
A local Weyl's law, the angular distribution and multiplicity of cusp forms on product spaces By JONATHAN HUNTLEY and DAVID TEPPER .....	97
On the symmetric square: Definitions and lemmas By YUVAL Z. FLICKER .....	111
On the symmetric square: Applications of a trace formula By YUVAL Z. FLICKER .....	125
Homotopie de l'espace des equivalences d'homotopie By GENEVIÈVE DIDIERJEAN .....	153
On Auslander-Reiten components of blocks and self-injective biserial algebras By KARIN ERDMANN and ANDRZEJ SKOWROŃSKI .....	165
Positive solutions of semilinear equations in cones By HENRIK EGNELL .....	191
Characterization for the solvability of nonlinear partial differential equations By ELEMER E. ROSINGER .....	203
$\Pi_1$ factors, their bimodules and hypergroups By V. S. SUNDER .....	227
The moment map of a Lie group representation By N. J. WILDBERGER .....	257
Hadamard matrices and their designs: A coding-theoretic approach By E. F. ASSMUS, JR. and J. D. KEY .....	269
Théorie de Sullivan pour la cohomologie a coefficients locaux By ANTONIO GÓMEZ TATO .....	295
Equivalence of families of functions on the natural numbers By CLAUDE LAFLAMME .....	307
Motion of level sets by mean curvature. II By L. C. EVANS and J. SPRUCK .....	321
